

Current Contracts

We have managed to complete the below projects successfully. The project at Molepolole Administrative Authority had some challenges especially that it involves guarding schools across the Kweneng catchment area with difficult terrain and the schools being scattered over a radius of more than 200 kilometres managing over 80 security guards. We have completed and still working on similar projects with no to less cases of theft. Our guards were well and timely paid and thus we never had any labour issues. This is the reason why we were recommended to take up other jobs elsewhere.
